IN-DEPTH STUDY

within a small group of DEVOTED STUDENTS

## *Mentoring Special Topic Class*

Monday-Wednesday, September 24 - 26, 2018

30 min. outside Santa Fe, New Mexico

This 3-day class is a unique opportunity for study within an intimate group of experienced student/practitioners. Attendance of 9 classes (at least Five 5-Day courses) and 3 years of hands-on practice is the prerequisite. Maximum 9 students. Preceded by the STC, *Relationships of Texts 1&2: How does 12 Organ Function Energy relate with Trinity Energy?*

Held at the adobe home of Cynthia and Uzi, our course will be one of **total immersion** in the Art of Jin Shin Jyutsu. Even our shared meals and quiet strolls will serve as vehicles for research into the qualities of **the Depths**. In our experience of Nature's abundant beauty, we can get to KNOW (and recognize) the qualities we hear within the Pulse and in the body.

**All will receive a session each day, and each will be our body-reading model** once during the class. We'll precede and follow each hands-on session with exercises from the tool-chest Cynthia has been developing over her sixteen years of teaching. These exercises are designed to help us explore and extend what we hear, see and feel in pulse, body and intuition. With experimental and concentrated practice of **pulse listening and body reading**, barriers to our awareness and understanding melt.
